

# CYBERSECURITY TECHNOLOGY

Copenhaven-Lincoln Community College  
Natchez, MS

2023 - 2024

The Cybersecurity Technology program at Copenhaven-Lincoln Community College will provide the knowledge and skills necessary for two-year graduates to obtain employment as a computer/network security technician. The program provides training in the areas of confidentiality, integrity, and availability in information security. Students will learn to install, design, manage, operate, plan, maintain and troubleshoot hardware in a secure information technology infrastructure.

The curriculum will train graduates with the skills necessary to obtain nationally recognized certifications in the areas of **A+** - CompTIA A+ Certification, and **Security+** - CompTIA Security+ Certification.

## Freshman Year

Approved Math/Science with Lab Elective	<u>3/4</u>	Approved Social/Behavioral Science Elective	<u>3</u>
	15/16		15

**ACT Requirement: ACT composite score of 18 is required**

*Employment of information security analysts is projected to grow 28 percent from 2016 to 2026, much faster than the average for all occupations. Demand for information security analysts is expected to be very high, as these analysts will be needed to create innovative solutions to prevent hackers from stealing critical information or causing problems for computer networks. (Bureau of Labor and Statistics)*
