

Copiah-Lincoln Community College

LPN-to-RN AT Program

End-of-Program Student Learning Outcomes

- I. **Client-Centered Care:** Deliver holistic patient-centered care that respects the cultural, spiritual, and individual values of diverse client populations
- II. **Client and Family Education:** Apply the nursing process while delivering care that encompasses the needs and cultural preferences of the client through advocacy, caring, and communication
- III. **Safety:** Utilize quality improvement tools and data analysis to identify risks, evaluate client safety, and implement interventions that enhance care outcomes.
- IV. **Teamwork and Collaboration:** Demonstrate effective communication and collaboration with clients, families, and interdisciplinary team members to coordinate care and enhance patient safety.
- V. **Evidence-Based Practice:** Integrate current evidence, clinical expertise, and client involvement to guide nursing practice that achieves optimal client centered care.
- VI. **Professional Development:** Engage in ongoing professional development that maintains clinical competence and adapts to evolving healthcare demands
- VII. **Professionalism:** Demonstrate leadership and professionalism through delegation, prioritization, teaching/learning, and critical thinking- considering any ethical or legal implications.
