The fire safety system of Copiah-Lincoln Community College includes fire extinguishers and fire hydrants around each campus housing facility. Smoke detectors are placed in every campus housing room. Alarms are also located throughout each campus housing facility along with diagrams of fire evacuation routes. Additional cameras were placed in Stevens Hall in 2013 to deter fire alarms being pulled. This has been effective.

If a fire should occur, an immediate call to Campus Police or the Resident Life Advisor/Associate should be made. The Wesson Fire Department may also be called in case of a fire.
